Why should I pay this much for this bill:

1 - My numbers and service were removed from my account with NO WARNING. Right now, I am working with one of your technicians to try to recover a number that twilio says it's already been recycled.

2 - I HAVE LOTS OF MARKETING ON THE AIR WITH THIS NUMBER - I hope this helps you understand why I am unsettled and upset.

3 - In the video explaining hotprospector current issue, it was mentioned that the rates went down. Why am I being charged the same? Specially after everything HotProspector put me through!!

I am a good customer. I've always been good to you. I will continue to be a good customer.

Looking for your prompt response,

Vitina
