Assets Exposed:

In the event of a lawsuit lawyers typically use a simple equation to establish the assets that someone has available/exposed in a lawsuit. They can sue you for up to 25% of your income for up to 10 years, plus any other assets that you have available (equity, savings, etc)

Income exposed:

90,000 x 10 yrs = 900,000 X 25% = 225,000  
 (combined annual income from Rental income, w2, 1099, and other income sources) (total income exposed)

Savings:

Equity in primary residence:

401k:

Roth IRA:

Other money:

10k  
200k  
~~50k~~
