Hi Mr. Buckman,

I'm sure you've been flooded with calls, emails and texts over the last 24 hours with quote estimates and people wanting to verify extra information to get you a rate. Here is your real quote with Safeco, a Liberty Mutual company, that is ready to go at the \$597 listed on the quote. Please take a moment to compare to your current policy and if you would like to make changes, I'd be happy to help, otherwise if everything looks good, I can help you start saving immediately.

I look forward to working with you!
