Your Initial Enrollment Period (IEP) begins 3 months before your 65th birthday, includes the month that you turn 65, and ends 3 months after your birthday month. Missing your Initial Enrollment Period can be costly. Medicare Part A, Part B and Part D (prescription drug coverage) may charge premium penalties if you miss your initial enrollment dates, unless you qualify for a Medicare Special Enrollment Period. If you're working past 65, you may be able to delay enrolling in Part B – and postpone paying the premium – without penalty.
